BC Parks Statistics Report 2013/14
Executive Summary

Attendance:

Overall attendance increased to approximately 21.3 million people in 2013/14, a 2.4% increase over the previous year. Day Use, Camping and Marine visits all showed attendance growth compared to 2012/13, with Day Use attendance experiencing the biggest lift (over 476,000 more visitors than the previous year). All five regions had increases in attendance. The South Coast and West Coast regions showed the biggest regional increases, with attendance rising by about 330,000 and 95,000 visitors respectively compared to the previous year.

Better weather in some parts of the province contributed to the increase, as well as less flooding than 2012/13. The expansion of campground facilities and amenities in some of the parks also resulted in higher attendance levels. For example, Martha Creek and Ketile River added 27 and campsites respectively, leading to substantial increases in both camping and day use attendance in those parks.

A variance report on page 6 of this report highlights significant increases and decreases in camping and day use attendance on an individual park level.

Revenues:

Net revenues from Recreation User Fees climbed to $17.1 million in 2013/14, compared to $16.1 million in 2012/13. One of the main reasons for this increase was the change in the sales tax system from the Harmonized Sales Tax model back to the Provincial Sales Tax (PST) and Goods and Services Tax (GST) model. As a result, only the 5% GST was applied to Recreation User Fees instead of the 12% HST, resulting in an increase in net revenues. This extra revenue was reinvested back into the park system through various park facility maintenance projects. The Kootenay Okangan and Northern regions reported the largest regional yearly increases at 14.4% and 12.5% respectively.

Park Use Permit Fee revenues were $1.6 million in 2013/14, a 13% increase over 2012/13.

Recoveries:

Recoveries increased by 11.5% to approximately $267,000. Film supervision recoveries and a federal agreement for Marine Protection were the main causes of the increase.

Operating Expenditures:

BC Parks' operating expenditures increased by about 1.8% in 2013/14. Most of this increase came from the in increase in retained fees from contract services, which was mostly attributable to the change back to the GST. There were reductions in expenditures on goods and services (about 20% less than 2012/13) and contract services for non-bundled parks (a 25% reduction).

Capital Expenditures:

BC Parks spent just under $1 million on land acquisitions in 2013/14. This included 395 hectares of land at the north end of Quadra Island between Small Inlet Marine and Octopus Islands Provincial Parks. It also included 109 hectares of land on Galiano Island valued at $475,000 which is to be added to Bodega Ridge Provincial Park.

About $13 million was spent on the maintenance, construction and improvement of park facilities, a decrease of about 6.5% compared to 2012/13. Facilities included roads, trails, benches, water and sewer systems, toilet and shower buildings, and various other structures. Some of the major facility investments included toilet/shower building refurbishments at Wasa Lake and Kikomun Creek; campground reconstructions and expansions at Beaumont, Mabel Lake and McDonald Creek; and road, bridge and parking lot upgrades at Roderick Haig-Brown Park.

Visitor Satisfaction:

The overall visitor satisfaction rating in 2013 came in at the target level of 80%, a slight increase from the 79% rating in 2012. The overall rating is based on an index of responses to five questions about key campground services. Campground visitors remained highly satisfied with the cleanliness of the grounds (90% rated this as excellent or above average), condition of facilities (80%) and sense of security (82%). Control of noise (76%) and cleanliness of restrooms (74%) both came in slightly below the target level of 80%.

BC Parks will continue to work with Park Facility Operators to improve these services and ensure visitors are highly satisfied with their stay in provincial campgrounds.

Key Performance Indicators:

Source: Camping, boating and day use group revenues from Parks Attendance and Revenue System; other revenues from Financial Data Warehouse.

[1]The overall increase in boating attendance was due to an increase in non-fee based boating usage. There was a slight decline in fee-based boating attendance, causing a drop in overall boating revenue.

[2]Day Use Fees for 2013/14 were previously divided into Group Revenues (Picnic Shelters) and hotspring fees. Silver Star Park also generated $323,683 in revenue for Nordic skiing trail fees; however, this revenue is retained by the non-profit operator, and any money that exceeds the operating costs to run the Nordic facilities is reinvested into the park's infrastructure. As such, park use permit fees for this particular operator are waived.

[3]Misc Fees and Licences increase: decrease in bad debt write offs, $40K, and increase in interest from overdue accounts, $15K; in previous years this category has also included "Return to Crown from PFOs", which is now reported separately.

[4]Not included is a one time write-off of revenue invoiced/earned but not received from Gibson's Pass Resort Inc., $288K, accrued Dec 31, 2010 - Feb 28, 2013.

[5]The Province cancelled the HST and returned to the GST/PST model on April 1, 2013. As a result of the change, only the GST was charged for Recreation User Fees and Permit Fees, resulting in higher net revenues.

[1]Tatshenshini River Rafting: Revenue in 11/12 was deferred and brought forward in 12/13, causing 11/12 to be understated and 12/13 higher than usual. FY 13/14 is reflective of norm.

[2]An additional $10,000 from Empire Valley Ranch was held in a deferred revenue account and used to complete projects in 2011/12.

[3]Other (EAO projects, Film Supervision, etc): Film Supervision increase of $31K; Fed Agreement Recovery (Marine Protected Area Network Strategies) $30K

[1]This year, changes in methodologies have affected categorization of income and expenditure accounts: *Other donations, Reservation Service, Partnership/sponsorship expenditures, and Reservation service expenditures*. The 2012/13 figures have been restated using new methodologies consistent with 2013/14 figures and may therefore differ from previous reports.

[2]Make Your Mark - increased number of bench requests

[3]VANOC - Cypress and Hollyburn - one-time donations

[4]Parks 100 and Strathcona Expedition - end of that project

[5]Other donations include several large one-time donations for use in specific parks for specific projects. Account recording specifics have changed changed since last year. The 2012/13 and 2013/14 are the new accounting numbers (may differ from previous year's Statistics Report).

[6]Tree removal (stumpage) - Major project in Strathcona Park in 12/13

[7]Other operating expenditures included extensive Community Engagement projects in regions.

[8]There are many commitments against this unspent balance - both stumpage revenue and most donations are tied to specific park projects. Reservation service revenues are also required for system improvements and to enhance services to the public.

BC Parks Statistics Report 2013/14
Significant Variances in Camping and Day Use Attendance

Parks with the greatest changes in attendance

This section highlights those parks which show the greatest increases and decreases in attendance. For day use, thresholds of plus or minus 30% and plus or minus 5,000 total attendance variance are used to highlight critical changes. For camping, thresholds of plus or minus 10% and plus or minus 1,000 in total attendance are used. The appendices provide individual variances in attendance and revenue for all parks.

Parks with INCREASED day use:

BC Parks Statistics Report 2013/14
2013 BC Parks Visitor Satisfaction Survey

The Visitor Satisfaction Survey assesses the ministry's effectiveness in achieving client satisfaction with campground facilities and services. Key parks are surveyed on a rotational basis, every 4 years. The survey is based on sound statistical principles, design and methodology. All ratings are based on responses of "excellent" and "above average" to the survey questions. The survey was undertaken from mid-May to the first week of September. BC Parks' overall visitor satisfaction rating is based on an index of visitor responses to questions about five key services: cleanliness of restrooms; cleanliness of grounds; sense of security; control of noise; and condition of facilities. The survey results also include demographic data.

Overall visitor satisfaction was 80% in 2013, meeting the Ministry of Environment Service Plan target. Campground visitors were highly satisfied with the cleanliness of the grounds (90 per cent of visitors rated this as excellent or above average) and sense of security (82 per cent excellent or above average). The lowest rating was given to the cleanliness of restrooms (about 74 per cent excellent or above average in 2013).

*The Province cancelled the HST and returned to the GST/PST model on April 1, 2013. As a result of the change, only the GST was charged for Recreation User Fees and Permit Fees, resulting in higher net revenues.

*Day Use parking fees were removed in May 2011

*The following parks changed regions in 2012/13, causing changes in relative regional attendance levels compared to previous years:

Mt Seymour Park moved from Northern to South Coast

Naikoon moved from Northern to West Coast

Pure Lake moved from Northern to West Coast

Parks are sorted alphabetically by region. "Bundle" refers to the group of parks that are managed by a single contractor. "Non-bundle" parks are individual parks managed under a single contract.

Due to counter malfunctions, three year averages for day use attendance were used for Blackcomb, Monkman, Morton Lake, Pure Lake, and Roberts Memorial Parks.
